Journal of Non-Newtonian Fluid Mechanics, 43 (1992) 389–390
Elsevier Science Publishers B.V., Amsterdam

Subject Index of Vol. 43

air bearing, 127
anisotropic fluid, 325
axisymmetric vortices, 165

bead–spring chain model, 143
biaxial elongation, 31
Brownian Dynamics, 195

chain breakage rate, 273
charged colloidal plates, 195
clay, 195
co-extrusion, 311
concentric cylinders, 165
constant-stress rheometer, 127
constitutive equation, 31
continuum theory, 83
contraction (4:1), 61
core-annular flow, 311
Couette flow, 83, 229, 165
Cox–Merz rule, 273
creeping flow, 229

director, 351

elastic liquids, 311
elongational flow, 179
elongational thickening, 247
elongational viscosity, 1
extentional flow, 83

FENE equation, 229
FENE-P chain model, 143
fibre-reinforced composite, 325
finite element techniques, 165
finite elements, 61
Fixman's theory, 143
flow visualization, 1
free energy, 351

Generalised Newtonian, 165

high-frequency dynamic viscosity, 369
Hookean dumbbells, 369
hydrodynamic interactions, 143

incompressible fluid, 83

junction lifetime, 273

Leslie–Eriksen equations, 35
Lodge–Meissner relation, 289
longwave instability, 311
liquid crystals, 351

Maxwell corotational fluid, 369
Maxwell equation, 229
Maxwell fluid, 61
mechanical moduli, 273

non-Fourier effects, 83
non-linear stress relaxation, 289
normal-modes, 143
normal stresses, 311
numerical simulation, 103

Oldroyd-B equation, 229
Oldroyd-B fluid, 61
order parameter, 351

phase, 351
polyethylene blends, 1
polymer solution, 179

rheometer design, 127
rod climbing, 103

shear flow, 179, 351
shear thinning, 247
sinuous mode, 311
stability analysis, 325
stress overshoot, 289
sudden contractions, 1
2-D suspension, 195
swirling flows, 103

temporal crosslinks, 247
time-dependent flow, 229
time-strain separability, 289
transient networks, 247, 273, 289

uniaxial elongation, 31
unsteady inflations, 31

varicose mode, 311
viscoelastic fluid flow, 61
viscoelastic liquids, 103
viscoelastic material, 31

viscoelasticity, 247
viscoelastic properties, 229
viscometric flow, 83
viscosity, 127, 247
vortex generation, 1
vortex ring, 179
vorticity, 179

Weissenberg effect, 103

yield stress, 127
